Company Profile

About Us

We are one of the leading knitted garments manufacturers cum exporters in Tirupur.

Founder Mr. R.Bharath Kumar join himself with this very big industries since 1994 and through various export banner. After lot of analysis, he gathered full knowledge, techniques about the knitted garments manufacturing and exporting, he started his own firm in the name of M/s SYSTEM APPARELS (P) LTD since 2001 and our new business firm name of M/s RBK APPARELS is situated in Tirupur.

Why We Are ?

We have constantly grown and upgraded our internal production facilities. We have also increased control over the complete process involved in the manufacture of knitted & woven garments.

The fact that we are dealing with our customers for a long time and that most of our business (over 70% to 80%) is repeat business- speaks for our performance.

We are looking for developing a business relationship with a long term perspective and hope to satisfy your sourcing requirements by not only supplying quality garments on time that meet international standards as far as shrinkage, colour fastness and other parameters are concerned, but we will also provide you world class service. We are certain you feel the difference in our service.

Discussing about the samples and the orders which we have done doesn't make 100% but if you can spare a few moments so that we can display some of our samples with world class quality and rock bottom prices will only satisfy.

Infrastructure

Knitting division

We are out source in knitting produces grey fabric thru various knit technique in diameter ranging from 14' to 36'.the knitting unit has the capability to produce 300000 meters of knitted fabrics per year.

Dyeing division

Soft flow machines are used for the bleaching and color dyeing of yarn and knitted fabric. Eco-Friendly Dyes and GOTS approved chemicals are used. A balloon – padding machine is used to extract water. We are out source in dyeing.

Compacting division

Compactor is important machine in Knit Finishing Process. Lot of technical works in fabrics will be taken care by Compacting Machine. Tubular Compactor is used to compact the fabrics in Tubular form. We are out source compacting.

Printing division

This division takes care of the requirements of printing on knitted fabric as well as garments. The printing can be done in a number of colors, qualities and various effects as per buyer's specifications. Standard dyes are used in printing.

Infrastructure

Embroidery division

Top most priority is given to Embroidery. Custom Embroidery T-Shirts are the most popular products. We specialize in doing LOGO Embroidery, Embroidery in Fleece and Jackets. We have our own Embroidery unit, which we use latest machines like for quality Embroidery.

Cutting division

Cutting is the main phase in garment making. A Garment can't be made without cutting. In our firm cutting is done by the persons who are perfectly skilled and experience. We have modern hand cutter and pattern cutting machines.

Stitching division

For stitching of garments we have 200 machines. The over lock and flat lock machines are from Pegasus-Japan and lock stitch are from Juki-Japan. All the machines are fixed with auto thread trimming and dust collection.

Checking division

Every garment is subjected thru a initial check in the production on to the line and only then passed on to the separate checking division for a final checking.

Ironing division

As this is the final figuring of a Garment, we take maximum care. We have a experienced team of checkers who under go checking in three stages. Initial / middle & Final. There are three filters to filter the garment before it reaches the Ironing Division.

Packing division

We buy our Packing Materials from leading suppliers and professional providers. We use only Oeko Tex certified labels produced from fully computerized labeling machines.
